Nos conseils pour un meilleur tarif

- Utilisez les tissus en 280cm ;
- Evitez le satin obscurcissant à cause du tissage et le velours à cause de sa panne ;
- Lors de votre commande, bien nous préciser l'endroit et l'envers du tissu ;
- Livrez vos tissus repassés.

A prendre en compte également, les motifs pour éviter trop de points d'arrêts, les allers-retours de la machine sur certains modèles qui influent sur le temps de piquage.
